

FINCH 360° CABIN FAN

SKU: FIN-F1001W (WHITE)
FIN-F1001B (BLACK)

The Finch Fan features an innovative gimballed design for 360° directional airflow across three-speed settings, providing unmatched comfort.

For peace of mind, the fan puts minimal strain on power due to the ultra-low power draw, drawing only 0.42A on its highest 12V setting.

The ultra quiet 7-Inch finger safe blades which includes four auto-off options (3, 6, 9 and 12 hours) allows for a restful night's sleep.

SPECIFICATIONS

- Innovative gimballed design offers complete 360° airflow
- USB type A charging port
- Remote control
- Three speeds with ultra quiet operation
- Sleep in comfort with four auto-off timer settings (3, 6, 9, and 12 hours)
- Long-life motor with low-power draw
- Hard-wired to power supply
- Easy installation. Secures to a baseplate which can be mounted to wall or ceiling
- 178mm (7") blade

12V-24V

SPECIFICATIONS

Voltage: 12V-24V auto sensing
Speed settings: 3 (Low / Medium / High)
Current Draw 12V:
Low = 0.14A, Medium = 0.26A, High = 0.42A
Current Draw 24V:
Low = 0.07A, Medium = 0.13A, High = 0.21A
Air flow volume (m3/hr):
Low = 628, Medium = 910, High = 1231
Dimensions (mm): 242H x 312L x 97D
Motor lifespan: 4000+ hours
Warranty: 1 year
